*Recommended by the Academic Board of Bukovinian State Medical University
as a textbook for students of higher medical education establishments
(minutes No. 7, 22 March 2018)*

Authors:

O.M. Slobodian, V.Yu. Yershov, H.Ya. Kostiuk, V.I. Pivtorak

Reviewers:

M.S. Hnatiuk — Doctor of Medical Sciences, Professor, Head of the Department of Operative Surgery and Topographic Anatomy of I. Horbachevsky Ternopil State Medical University;

V.V. Kosharnyi — Doctor of Medical Sciences, Professor of the Department of Clinical Anatomy, Anatomy and Operative Surgery of State Establishment "Dnipropetrovsk Medical Academy of Health Ministry of Ukraine";

S.M. Bilash — Doctor of Biological Sciences, Professor, Head of the Department of Clinical Anatomy and Operative Surgery of Higher State Education Establishment of Ukraine "Ukrainian Medical Stomatological Academy"

Clinical Anatomy and Operative Surgery : textbook / O.M. Slobodian, V.Yu. Yershov, H.Ya. Kostiuk, V.I. Pivtorak ; edited by V.Yu. Yershov. — Kyiv : AUS Medicine Publishing, 2018. — 504 p. ; color edition.
ISBN 978-617-505-684-4

The textbook contains a complete course of both operative surgery and clinical anatomy. It is aimed at higher medical schools' students of "Medicine" specialty. The guide deals exhaustively with the key issues of the subject, its history, basic items of clinical anatomy, main principles of operative surgery as well as classical and advanced surgical techniques. An increased focus is put on the evolution of clinical anatomy and operative surgery in Ukraine.

The present edition includes the introduction, historical review, introductory chapter of the general principles of clinical anatomy and operative surgery as well as 30 special chapters describing the clinical anatomy of the human body. The manual also comprises the basic and the most common techniques of surgical interference used in the area.

The textbook contains color and black-and-white figures, tables and diagrams. This edition may be beneficial to the students, interns and doctors of surgical specialties.

Contents

PREFACE	6	Cellular spaces of neck.....	112
HISTORICAL ESSAY	7	Suprahyoid region of neck	113
INTRODUCTION	15	Submental triangle of neck	113
General issues of clinical anatomy	16	Submandibular triangle	114
Clinical anatomy. Surgical anatomy.		Lingual nerve. Triangle of Pirogov.	
Regional anatomy	16	Submandibular lymphatic nodes	116
Basics of operative surgery	23	Infrahyoid region of neck.....	116
Operative surgery. Surgical operation.		Carotid triangle.....	116
Names of operations.....	23	Omotracheal triangle	121
Operative method. Completion of		The lateral region of neck	121
operation. Classification of surgical		Stenocleidomastoid area.....	125
operations	26	Topography of subclavian artery. Nerves	
Operative technique.		of the subclavian area.....	128
Disconnection of tissues. Hemostasis.....	27	Organs of neck.....	130
Surgical instruments.		Larynx	130
Classification of surgical instruments.....	28	Trachea.....	135
HEAD	45	Pharynx.....	136
Cerebral part of head.....	46	Thyroid	139
Topography of calvaria	46	Esophagus.....	144
Cavity of skull	55	Operations on neck.....	144
Facial part of head	63	Vagosympathetic blockade	144
Operations on head.....	99	Tracheotomy	145
Closed craniocerebral traumas.....	99	Operations on a thyroid	148
Wounds of calvaria.		Operations at abscesses and	
Surgical roughing-out of penetrating		phlegmons of neck	150
wounds of calvaria. Operation at a wound		CHEST	151
on a head	99	Clinical anatomy of chest	152
Osteoplastic trepanation of the skull.		Topography of thorax	154
Indications for trepanation of the skull.		Topography of lungs	168
Methodology of implementation of		Topography of heart	183
trepanation of the skull	101	Operations in region of chest.....	198
Trepanation of skull.....	102	Wound of thorax	198
NECK	105	Rib resection	199
Borders of neck. Regions of neck	106	Mastitis	200
External reference-points of front region		Mammectomy on Halstedt. Mammectomy	
of neck. Projection of vessels, organs of		on Patey—Dison	201
neck on a skin	109	Puncture of subclavian vein.....	202
Fasciae of neck.....	109	Puncture of cavity of pleura.....	202

Puncture of pericardium	203	Clinical anatomy of lumbar area and retroperitoneal space	300
Operative accesses to thoracic cavity....	203	Layers of lumbar area. Muscles of lumbar area. Triangle of Petit.....	302
ABDOMEN. LUMBAR AREA.		Deep muscles of lumbar area. Rhombus of Lesshaft—Grynfeldt.....	304
PELVIS	205	Retroperitoneum	305
Clinical anatomy of abdomen	206	Abdominal part of aorta	307
Borders of abdomen. Cavity of abdomen .	206	Postcava.....	310
Projections of organs of abdomen	208	Lumbar plexus	311
Forward-lateral abdominal wall.....	208	Sympathetic trunk	312
Parietal peritoneum	216	Abdominal aortic plexus. Coeliac plexus. Parasympathetic innervation of organs of abdominal region.....	312
Inguinal area	218	Lymphatic system of retroperitoneum ...	314
Inguinal hernia.....	224	Kidneys.....	315
Cavity of abdomen. Peritoneal cavity. Peritoneum	224	Topography of suprarenal glands.....	320
Liver.....	232	Ureters	321
Gallbladder	237	Operations on the organs of retroperitoneum.....	322
Bilious channels	238	Wound of kidney.....	324
Abdominal part of oesophagus.....	240	Removal of kidney (nephrectomy)	325
Stomach.....	240	Clinical anatomy of pelvis	325
Duodenum. Topography, projection of duodenum	249	Walls of small pelvis. Topography of small pelvis	327
Pancreas. Topography, projection of pancreas	252	Diaphragm of pelvis.....	330
Spleen. Topography, projections of spleen.....	256	Cavity of small pelvis	332
Lower floor of abdominal cavity	258	Rectum	345
Small bowel. Topography of small bowel...	261	Urinary bladder	348
Colon. Parts of colon	266	Topography of ureters.....	349
Operations in region of abdomen	277	Prostate	351
Operation at hernia of abdomen. Principles of operations at hernia. Stages of operation at hernia	277	Topography of deferens channel	352
Celiotomy. Accesses to the organs of cavity of abdomen.....	286	Seminal glands.....	353
Examination of abdominal region at wounds	287	Topography of female rectum.....	353
Enteroplexies	288	Topography of female urinary bladder ...	354
Intestinal anastomoses	291	Topography of female ureters.....	354
Operations on stomach.....	292	Topography of uterus	355
Operations at the trauma of liver.....	295	Topography of ovary	359
Cholecystectomy	296	Topography of vagina	359
Operations on spleen	297	Crotch.....	361
Operations on pancreas	298	Topography of male urogenital area	365
Appendectomy	299	Topography of penis	367
		Topography of masculine urethra.....	369

Topography of scrotum.....	370	Anaesthesia of pudendal nerve.	
Topography of seminal rope	371	Breaks of crotch.....	380
Topography of female urogenital area ...	371	Puncture of abdominal cavity through the back vault of vagina. Accesses at operations on female genitalia.....	381
Topography of pudendum.....	373	Operation at ectopic pregnancy	381
Topography of female urethra.....	374	The abdominal caesarian section.	
Operations in region of pelvis	375	Corporal caesarian section.....	382
Debriding of wounds of organs of small pelvis. Blockade on Shkolnikov—Selivanov.....	375	Operative treatment of pyoinflammatory processes in region of small pelvis	383
Wounds of urinary bladder.			
Capillary puncture of urinary bladder.		UPPER EXTREMITY.	
Suprapubic cystostomy	375	LOWER EXTREMITY.....	385
High section of urinary bladder.		Clinical anatomy of upper extremity	386
Operations on prostate.....	377	Operations on upper extremity.....	439
Operations at hydropsy of testicle.....	378	Clinical anatomy of lower extremity	443
Wounds of rectum	378	Operations on lower extremity	495
Operations at piles.		LITERATURE.....	503
Bandaging of haemorrhoidal nodes.			
Operations at the fissure of anus.....	379
