*It is published according to the decision of  
National Medical University as a textbook for students of higher medical and  
pharmaceutical universities of III–IV level of accreditation  
(record No. 9 of April 18, 2018)*

*Видається згідно з рішенням вченої ради Одеського національного медичного  
університету як навчальний посібник для студентів вищих медичних  
та фармацевтичних університетів III– V рівнів акредитації, інтернів,  
лікарів, провізорів (протокол № 9 від 18.04.2018 р.)*

### Reviewers:

Head of Physical and Chemical Pharmacology Department at the Institute of Physical Chemistry named after O.V. Bogatsky NAS of Ukraine, academician of National Academy of Medical Sciences of Ukraine, Honored Worker of Science and Technology of Ukraine, laureate of State Prize of Ukraine, Doctor of Biological Sciences, Professor **M. Ya. Golovenko**.

Head of the Department of Experimental and Clinical Pharmacology with Clinical Immunology and Allergology of Higher State Educational Institution “Ukrainian Medical Dentistry Academy” of Ministry of Health of Ukraine, Honored Scientist of Ukraine, laureate of State Prize of Ukraine, Doctor of Medical Sciences, Professor **V. M. Bobyriov**.

G59 Pharmacology in Drawings and Schemes = Фармакологія в  
рисунок і схемах / V. V. Godovan ; edited by V. I. Kresyun. –  
Vinnytsia : Nova Knyha, 2021. – 464 pp. : illust.

ISBN 978-966-382-862-6

The publication covers issues of general and private pharmacology, stated in curriculum and programme of pharmacology course, approved by Ministry of Health of Ukraine. The course of pharmacology is presented in simple and visual form focussing on the algorithm of studying the subject and facilitating its understanding. The material provided is integrated with other medical, biological and clinical disciplines. The history of development of drug preparations is presented in a short form, as well as modern classification of pharmacological groups, generalized foreign and domestic data on pharmacokinetics, pharmacodynamics and pharmacotoxicodynamics of drugs used in medical practice. The publication is unique in that the bulky and complex material on pharmacology is concisely and clearly structured and presented in easy for perception form. The information for each group is given in a unified and logical sequence describing of the mechanisms of action of drugs and their effects in schemes, thus facilitating perception of the material.

It is intended for students of higher medical and pharmaceutical universities of III–IV levels of accreditation, interns, doctors, pharmacists.

# CONTENTS

<b>Part I. Introduction to speciality</b> .....	7
Topic 1. General pharmacology .....	8
<b>Part II. Drugs affecting the peripheral nervous system</b> .....	26
<i>Drugs affecting efferent innervation</i> .....	27
Topic 2. Cholinotropic agents .....	27
Topic 3. Adrenotropic agents .....	44
<i>Drugs affecting afferent innervation</i> .....	56
Topic 4. Drugs irritating and protecting receptors .....	56
<b>Part III. Drugs affecting the central nervous system</b> .....	71
Topic 5. General anesthetics. Alcohols .....	72
Topic 6. Hypnotic and anticonvulsant drugs .....	81
Topic 7. Non-narcotic analgesics, nonsteroidal anti-inflammatory drugs (NSAIDs), antipyretics .....	95
<i>Psychotropic drugs</i> .....	106
Topic 8. Psychodysleptics. Narcotic analgesics .....	106
Topic 9. Neuroleptics. Tranquilizers. Psychosedatives .....	117
Topic 10. Antidepressants. Normotimics. Psychostimulants. Actoprotectors. Nootropics. Adaptogens. Analeptics .....	133
<b>Part IV. Drugs affecting the cardiovascular system</b> .....	149
Topic 11. Cardiotonic drugs. Cardiac glycosides. Nonglycoside cardiotonics .....	150
Topic 12. Antiarrhythmic drugs .....	158
Topic 13. Antianginal drugs. Complex therapy of myocardial infarction ...	172
Topic 14. Diuretic drugs. Complex therapy of chronic heart failure. Anti-gout agents .....	185
Topic 15. Drugs regulating arterial blood pressure. Antihypertensive and hypertensive drugs .....	201
Topic 16. Myotropic drugs .....	227
Topic 17. Drugs affecting blood circulation and microcirculation .....	234
<b>Part V. Drugs affecting metabolism</b> .....	243
Topic 18. Hormonal drugs of polypeptide and aminoacid structure. Antihormonal drugs .....	244
Topic 19. Hormonal drugs of steroid structure, their analogues and antagonists .....	267
Topic 20. Vitamin drugs. Enzymatic drugs and enzyme inhibitors. Different drugs affecting metabolism .....	279

<b>Part VI. Drugs affecting the blood system</b> . . . . .	289
Topic 21. Drugs affecting erythropoiesis. Blood substitutes . . . . .	290
Topic 22. Drugs affecting leukopoiesis and blood coagulation. . . . .	302
<b>Part VII. Drugs affecting the immune processes</b> . . . . .	332
Topic 23. Immunotropic and antiallergic drugs. . . . .	333
<b>Part VIII. Antimicrobial and antiparasitic drugs.</b> . . . . .	361
Topic 24. Disinfectants and antiseptics. . . . .	362
Topic 25. Antibiotics . . . . .	370
Topic 26. Sulfonamides. Antimicrobial drugs of different chemical structure . . . . .	386
Topic 27. Antituberculosis, antisyphilitic, antiprotozoal, antihelminthic, antimycotic, antiviral drugs . . . . .	395
<b>Part IX. Pharmacotherapy in pathology of specific systems</b> . . . . .	409
Topic 28. Drugs affecting functions of digestive, respiratory organs, myometrium. . . . .	410
<b>Part X. Pharmacology of emergencies</b> . . . . .	422
Topic 29. Pharmacotherapy of acute poisonings and states of acute emergencies . . . . .	423
<b>Part XI. Pharmacotoxicodynamics</b> . . . . .	440
Topic 30. Problem of pharmacotherapy safety: causes and ways of its solution . . . . .	441
<b>References</b> . . . . .	455
<b>List of abbreviations</b> . . . . .	456
<b>About the author.</b> . . . . .	460
