Approved by the Ministry of Education and Science of Ukraine as a textbook for students of higher education establishments — medical universities, institutes, and academies (letter No. 1/11-20846, 31 December 2013)

Published pursuant to the Order of the Ministry of Health of Ukraine No. 502 as of 22 June 2010 as a national textbook for students of higher education establishments — medical universities, institutes, and academies

Authors:

I.A. Hryhorova, L.I. Sokolova, R.D. Herasymchuk, V.A. Hryb, L.A. Dziak, O.A. Koziolkin, L.L. Korsunskaya, H.M. Kushnir, V.P. Lyseniuk, N.V. Lytvynenko, T.V. Myronenko, S.P. Moskovko, V.M. Pashkovskiy, M.I. Pityk, S.S. Pshyk, V.I. Smolanka, A.S. Son, O.A. Statinova, O.L. Tovazhnianska, V.M. Shkolnyk, S.I. Shkrobot

Reviewers:

A.V. Payenok — Doctor of Medical Sciences, Professor, Head of the Department of Neuropathology and Neurosurgery of the Postgraduate Faculty of Danylo Halytsky Lviv National Medical University;

N.M. Buchakchiyska — Doctor of Medical Sciences, Professor, Head of the Department of Nervous Diseases of the State Establishment “Zaporizhzhia Medical Academy of Postgraduate Education of the Ministry of Health of Ukraine”;

T.A. Litovchenko — Doctor of Medical Sciences, Professor, Head of the Department of Neurology and Children’s Neurology of Kharkiv Academy of Postgraduate Education

Specialist editor:

L.V. Panteleienko — Candidate of Medical Sciences, Associate Professor of the Department of Neurology of O.O. Bohomolets National Medical University

Neurology=Неврологія : textbook / I.A. Hryhorova, L.I. Sokolova, R.D. Herasymchuk et al. ; edited by I.A. Hryhorova, L.I. Sokolova. — Kyiv : AUS Medicine Publishing, 2017. — 624 p. + 32 p. color insert.

ISBN 978-617-505-595-3

545281

The national textbook presents topical diagnostics of nervous system diseases and the main sections of clinical neurology from the standpoint of classical medicine and current scientific advances. The main topical principles of the structure of the central and peripheral nervous system, symptoms of cranial nerve disorders, issues of neurophysiology and its peculiarities in childhood are discussed in detail. The book outlines the fundamentals of modern diagnostics of nervous diseases and its methods (electrophysiological, ultrasound, computed tomography, biochemical), which make it possible to study the structure and functions of the nervous system, its metabolism, and hemodynamics under conditions of physiology and pathology.

The textbook is intended for students of higher education establishments — medical universities, institutes, and academies, and also interns, neurologists, and family doctors.

CONTENTS

Abbreviations	7
Preface	9

PART I GENERAL NEUROLOGY

Chapter 1. BASIC PRINCIPLES OF STRUCTURE AND FUNCTIONING OF THE NERVOUS SYSTEM	11
General principles of structure of the nervous system	11
Main stages of development of the nervous system	12
General Principles of Functioning of the Nervous System	13
Chapter 2. SENSITIVE SYSTEM AND SYMPTOMS OF ITS LESION	18
Anatomy of the Analyzer of the Superficial Types of Sensitivity	20
Anatomy of the Analyzer of the Deep Types of Sensitivity (Muscular-Joint, Vibratory and the Tactile Part)	22
Different Methods of Research of Sensitivity	23
Kinds and Types of Sensitivity Disorders	25
Syndromes of the Lesion of Sensitive Pathways at Different Levels	29
Chapter 3. THE SYSTEM OF MOTOR ACTIVITY	32
The Reflex Activity	32
The System of Voluntary Movements	36
The Extrapyramidal System	46
Statocoordinatory System	53
Chapter 4. GENERAL ANATOMIC-PHYSIOLOGICAL CHARACTERISTIC OF THE CRANIAL NERVES	58
Chapter 5. INTEGRATIONAL SYSTEMS OF THE BRAIN	78
The Cerebral Cortex	78
The White Matter of Cerebral Hemispheres	87
The Cognitive Functions and Their Disturbance	88
Chapter 6. AUTONOMIC NERVOUS SYSTEM	93
Anatomofunctional Features	93
Regulation of Urination and Its Disorders	97
Methods of Research of the Autonomic Nervous System	100
Syndromes of the Lesion of the Autonomic Nervous System	101
Chapter 7. FEATURES OF RESEARCH OF THE NERVOUS SYSTEM IN CHILDREN OF EARLY AGE	107
General Data on the Development of the Nervous System in Children	107
Features of the Reflex Sphere in Newborns	110
Development of the Motor Functions	111
Features of Formation of the Highest Mental Functions	115
Features of the Neurologic Examination of Children	117
Semiotics of the Neurologic Disorders at Different Age	120
Chapter 8. THE CEREBROSPINAL FLUID. SYNDROMES OF OF IRRITATION OF THE MENINGES	126
Anatomic-Physiological Features of the System of the Cerebrospinal Fluid	126
Investigation of the Cerebrospinal Fluid	130
Symptom-Complex of Irritation of the Meninges	132

Chapter 9. ADDITIONAL METHODS OF INVESTIGATION 135
 Electrophysiological Methods of Investigation 135
 The Ultrasonic Methods of Investigation 148
 The Methods of Visualization of the Skull, Vertebral Column, Vessels, Brain, and Spinal Cord 153
 The Morphological Methods of Investigation 163
 Other Methods of Investigation 164

TESTS TO PART 1 "THE GENERAL NEUROLOGY" 169

**PART 2
 SPECIAL NEUROLOGY**

Chapter 10. VASCULAR DISEASES OF THE BRAIN AND SPINAL CORD 178
 The Blood Supply of the Brain 178
 The Vascular Diseases of the Brain 181
 The Blood Supply of the Spinal Cord 225
 The Disorders of the Circulation of the Spinal Cord 227

Chapter 11. DISEASES OF THE PERIPHERAL NERVOUS SYSTEM 233
 Vertebrogenic Lesions of the Peripheral Nervous System 235
 Lesions of the Intervertebral Ganglia and Plexuses 242
 Lesion of the Roots and Nerves of the Spinal Cord 245
 Lesions Of Separate Nerves Of The Spinal Nerves 257
 Neuralgia And Neuropathy Of The Cranial Nerves 259

Chapter 12. INFECTIOUS DISEASES OF THE CENTRAL NERVOUS SYSTEM 263
 Meningites 263
 The Cerebral Arachnoiditis 279
 Encephalites 281
 Prion Diseases 296
 Neuroborreliosis 302

Chapter 13. PARASITIC AND FUNGAL DISEASES OF THE NERVOUS SYSTEM 309
 Toxoplasmosis 309
 Echinococcosis 312
 Cysticercosis 314
 Candidiasis 316
 Cryptococcosis 317
 Coccidioidomycosis 318

Chapter 14. NEUROAIDS 319
 General Characteristic of HIV Infection 319
 The Neurologic Implications of the HIV Infection Caused by Direct Influence of the Virus on the Nervous System 321
 The Treatment 327

Chapter 15. NEUROSYPHILIS 328

Chapter 16. DAMAGE OF THE NERVOUS SYSTEM IN TUBERCULOSIS 335
 The Tuberculous Meningitis (Meningocephalitis) 336
 The Tuberculous Vasculitis 338
 The Brain Tuberculoma 338
 The Tuberculous Abscess of the Brain 339
 The Tuberculous Myelopathies 339
 The Tuberculous Meningocephalitis In Combination With The Lesion of the Nervous System on the Aids 341

The Tuberculous Meningocephalitis in Combination With The Fungal Infection of the Nervous System	342
The Tuberculous Intoxication (Vegetative Dystonia Syndrome Somatogenically Caused by the Tuberculous Intoxication)	342
Chapter 17. DEMYELINATING DISEASES	343
The Multiple Sclerosis	343
The Acute Disseminated Encephalomyelitis	355
Chapter 18 . HEREDITARY DISEASES OF THE NERVOUS SYSTEM	358
Hereditary Diseases with the Primary Lesion of the Neuromuscular System	358
The Hereditary Diseases with the Primary Lesion of the Pyramidal System	378
The Hereditary Diseases with the Primary Lesion of the Extrapyramidal System	380
The Hereditary Diseases with the Primary Lesion of the System of Coordination	382
Chapter 19. MYASTHENIA AND THE MYASTHENIC SYNDROME	386
Chapter 20. THE MUSCULAR DYSTONIES	392
Chapter 21. PARKINSON'S DISEASE	396
Chapter 22. AMYOTROPHIC LATERAL SCLEROSIS	403
Chapter 23. DEMENTIA	406
Chapter 24. THE PERINATAL LESIONS OF THE NERVOUS SYSTEM	413
The Hypoxic-Ischemic Lesions of the Brain	415
The Hypoxic-Hemorrhagic Lesions of the Brain	416
The Infantile Cerebral Palsy	422
Chapter 25. CONGENITAL DEFECTS OF THE SPINE AND SPINAL CORD, SYRINGOMYELIA	427
Congenital Defects of the Spine And Spinal Cord	427
Craniovertebral Maldevelopments	429
Syringomyelia	430
Chapter 26. THE HEADACHE	435
Chapter 27. SLEEP AND ITS DISORDERS	444
The Anatomic Substrate and Physiology of the Sleep	444
The Options of the Sleep Disorders	447
Chapter 28. PAROXYSMAL STATES IN THE CLINIC OF THE NERVOUS DISEASES	458
Epilepsy	458
The Paroxysmal States of the Non-Epileptic Origin	466
Chapter 29. LESIONS OF THE NERVOUS SYSTEM CAUSED BY PHYSICAL FACTORS	473
Neurologic Disturbances in the Radiation Disease	473
Neurologic Manifestations of the Occupational Diseases Caused by Influence of Physical Factors ..	476
Chapter 30. THE EXOGENOUS NEUROINTOXICATIONS	481
General Characteristic	481
Intoxication with Mercury and its Compounds	483
Intoxication with Lead and its Compounds	485
Exogenous Intoxication with Manganese	489
Exogenous Intoxication with Arsenic and its Compounds	490
Intoxication with Hydrogen Sulfide	492
Intoxication with Carbon Monoxide	493
Intoxication with Chlororganic Compounds	494
Intoxication with Organophosphorus Compounds	495

CONTENTS

Intoxication with Tricresylphosphate	496
Intoxication with Methyl Alcohol	497
Intoxication with Gasoline	498
Poisoning with Ethyl Alcohol	498
Chapter 31. TUMORS OF THE CNS	501
The Primary Tumors of the Brain	501
The Primary Tumors of the Spinal Cord	514
The Secondary (Metastatic) Tumors	514
The Treatment of the Brain Tumors	515
The Treatment of the Tumors of the Spinal Cord	517
Chapter 32. TRAUMATIC LESIONS OF THE CNS AND PERIPHERAL NERVES	519
The Craniocerebral Trauma (CCT)	519
The Spinal Trauma (ST)	534
Trauma of the Peripheral Nervous System	539
The Problems of Rehabilitation of Trauma of the Nervous System	542
Chapter 33. SOMATONEUROLOGIC SYNDROMES	545
Damage of the Nervous System in the Cardiac Vascular Diseases	547
Damage of the Nervous System in Diseases of the Respiratory Organs	548
Damage of the Nervous System in Diseases of the Digestive System	549
The Neurologic Disorders in Kidney Diseases	551
Damage of the Nervous System in the Endocrine Diseases	552
Damage of the Nervous System in Diseases of the Blood System	557
Damage of the Nervous System in the Connective Tissue Diseases	559
The Neurological Disorders in the Malignant Neoplasms of the Non-Cerebral And Non-Spinal Localization	560
Chapter 34. NEUROSTOMATOLOGIC DISEASES	562
The Pain Phenomena	563
The Syndromes of the Lesion of the Facial, Glossopharyngeal, Vagus, and Hypoglossal Nerves	580
The Paresthetic Syndrome (Glossodynia)	585
Other Neurogenic Diseases of the Face	588
Chapter 35. METHODOLOGY OF THE NEUROLOGICAL DIAGNOSIS. YATROGENIYA, DEONTOLOGY, AND ETHICS IN THE PRACTICE OF NEUROLOGIST	591
Methodology of the Neurological Diagnosis	591
Yatrogeniya, Deontology, and Ethics in the Practice of the Neurologist	599
TESTS FOR THE PART 2 "SPECIAL NEUROLOGY"	601
TASKS FOR THE PART 2 "SPECIAL NEUROLOGY"	610
