Vynograd N.O.

V49 General Epidemiology : study guide / N.O. Vynograd. — 3rd ed., corrected. — Kyiv : AUS Medicine Publishing, 2017. — 128 p.

ISBN 978-617-505-582-3

The study guide was prepared according to the typical syllabus for Epidemiology with due account of the qualification description and standards of training on the basis of regulatory and binding documents of the Ministry of Health of Ukraine. The book sets out in concise detail the fundamentals of general epidemiology and approaches to prevention of epidemiological complications, protection of the population and territory from the spread of infectious diseases.

The study guide is intended for students and internship doctors of higher education establishments — medical universities, institutes and academies.
